Santa and the Goblins

A Graphic Fantasy Adventure

INTRIGUE
SOFTWARE

Games to remember

10K BASIC
TI-99/4A

You play the role of S.C. delivering the last of your gifts in a large stately home. A grabble of wicked greedy Goblins have moved in.

The game has lots of magical things to keep you baffled for a long time.

You will be amazed by the way the characters talk back to you in response to your questions as they move around in the game of their own accord...

This Fantasy Adventure requires great skill if you are going to be successful. While the novice will have immense fun travelling in part of the adventure trying to control the events...

The screen presents you with a brilliant graphical display of your location in 3D and each character when present...

Loading the Program
The procedure for loading the program is fully described in the Texas TI-99/4A users reference guide.

The steps are summarised below:

1. Connect the plug end of lead CS1 to your cassette player as follows.
 - *Insert the plug with the white wire into the speaker or earphone jack.
 - *Insert the plug with the black wire into the remote jack.
2. Set the volume control to half and the tone control to full.
3. Type OLD CS1 then press enter.
4. Follow the instructions displayed on the television screen.

Playing the Game

1. Set the Alpha lock key to the 'up' position.
2. Type N.S.E. or W. for movement commands.
3. Type the first three letters of any verb followed by the first three letters of the object you want the verb to act upon. Omit the word spacing. For example:
To take a mince pie type takmin
- 4 To talk to someone type say then your statement with the persons name.

There are many commands in this game that you will need to discover to be successful. Each command works in the way set out above. Note that the word spacing is omitted. (After the first word only)
