

S P L O D G E

in TI BASIC

by Martin Hobbs

Splodge is rather like frogger - you must move from the bottom of the screen to the top as many times as you can, avoiding the moving objects.

In the centre of the screen the wide bare area contains moving currents which will sweep you along. When you are ready to enter the top section of objects, remember : you cannot move straight upwards, you will always move up AND to the right!

The scoring is random with 50 to 90 points per completed screen.

Use the arrow keys to move!
