SHUTTLE ATTAK

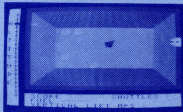

G19

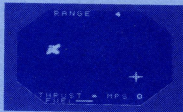

A CHALLENGING SIMULATION GAME FOR THE TEXAS TI-99/4A COMPUTER. Requires Extended Basic. (JOYSTICK OR KEYBOARD)

As Flight Commander of our Shuttle Craft your mission is to capture Russian satellites flying in Earth orbit. You must safely fly the Shuttle out of its Silo into orbit. All of your flying skill will be needed if you are to avoid Russian missiles. Once in space you must find and dock with the satellites.

Flying inside the Silo. The Shuttle handles like a Harrier, hovering, turning, flying in eight different directions.

The Shuttle craft has left the Silo and is on its way up into space. A missile attack is imminent.

Deep space. As the Shuttle closes with the satellite all of your skill will be required to complete the first mission.
