ADVENTURE GAMING GUIDELINES

Adventure game offer a different challenge in computing gaming. A scenerio is created where you must solve puzzling mysteries and explore strange places, attempting to find a solution and complete the adventure. Use your common sense as you try to avoid death at every turn. This is by no means an easy task!

THE COMMANDS

All commands may be entered from the keyboard in plain english. You can enter a sentence with as many words as will fit, but usually you only need two or three words, such as *OPEN THE DOOR* or *READ BOOK*. The following is a list of verbs frequently used in adventure games. When you run the game, you will see a list that is pertinent to your particular game. There will likely be other verbs not on the list which you will have to find on your own.

<i>GO</i>	<i>LOOK</i>
<i>TAKE</i>	<i>DROP</i>
<i>OPEN</i>	<i>USE</i>
<i>READ</i>	<i>TIE</i>
<i>INVENTORY</i>	<i>LIST</i>

You will be given the obvious exits from an area, but you will have to figure out other not so obvious ones for yourself. Some typical movement commands would be *GO SOUTH*, *GO THROUGH DOOR*, or *GO DOWN STAIRS*. in general, *LOOK* at everything and try anything to get a response. Always "look" before you "leap" since there are usually many ways in which you may be killed. Be extra cautious; if you should die, you will have to re-start the game. It is a good idea to keep notes and draw a map as you go along.

GOOD LOOK !
